Introduction

Congratulations, just by reading this short and simple ebook you have taken a BIG step towards growing your business!

Now to be completely honest since this free eguide was originally created my page has grown to over 3000 likes using my \$3/day ad technique I teach my clients. This however is the perfect place to start if you have been struggling to grow your business page.

I am so glad you have made the decision to get serious about growing your FB following and am so grateful that you are actually taking the time out of your busy schedule to read this! As a multiple business owner, mother of three, I totally understand how busy we are all these days! But by taking just a few minutes to read through this ebook instead of scrolling through FB you are doing yourself and your business a BIG favour! So grab a cup of coffee or tea and let's dig in.

So when I first started in my business I wanted to focus solely on in person clients. But as years passed I eventually decided to follow the advice of my mentors and leaned into the online world. When I did something amazing happened. My business EXPLODED! I suddenly had more clients than ever!

Here is what we are going to cover:

Whether you are focussing on in person clients, online or both. The information here is going to get you more action on your FB page, more clients which means more PROFIT!

How to get more comments on your posts and more likes on your page

How to apply some of my techniques that will book you more clients

Give you simple examples/action steps to grow your business for FREE

I am so excited to share these post types and examples with you and I know these will change the whole way you treat social media!

How to grow your page!

Now I am not claiming to have 100k followers or anything like that (well not yet anyway) but I am proud of the following I have built on FB without paying a ton in advertising!

Here are some simple post examples that you can take, apply to your own business and start using NOW!

You may be wondering why does any of this really matter? Well here's the deal: The way FB works these days if the people who "like" your page do not comment or like your posts FB will stop showing them the activity on your page! Which then means they get busy with life and forget about you and your business--we can't let that happen!

As mindful entrepreneurs we often have HUGE visibility blocks, our work is about helping others and not so much about us--right? And so your work should be, however you NEED to remind people you are there to help them! The more people that see you, know about your business, the more people you are going to be able to help, the more your business will grow (and the more income you will make!)

So let's dive in.

Offer to draw a card

Chances are if you are an intuitive you likely have multiple decks of cards laying around. Grab them, snap a pic.

Interactive Insight

One of my favourites! Lay out a spread ABCD or ABC and allow them to choose their card

Be unique!

I happen to collect tea cups so I often use them for interactive readings. But crystals, runes they all have great responses

Start a challenge!

This is a fun way to keep yourself and some of your followers accountable. It could be a meditation challenge, a journaling challenge, decluttering, etc. The possibilities are endless! Plus it will keep you posting each and every day!

Ask a question!

I love this one! They may not get as many comments, reach or views but still such a great way to interact!

Intuitive Exercises!

These are so fun! Get your clients to use that gorgeous intuition of theirs and get some action going on your page! You can use photo/video!

A few things to remember

Always make things fun and super clear!

People come to Facebook to shut off their mind typically, so don't over complicate things.

Remind people!

Be sure to remind people to share the post, to like- to comment. ASK them to help you grow your page!

You can never give too much!

But remind them to buy/book your services as well!

Be consistent!

As human beings we love routine so your followers will begin to wait for your regular posts!

Let your followers get to know you!

They come to see you and share their struggles and challenges so don't be hesitant to give them a sneak peek into your life.

Hey you Amazing Mystic,
I'm Tanza a Spiritual Business Mentor and Coach

I teach amazing Mystics just like you to build a business that will transform the lives of your clients and build you a spiritual business that generates a six-figure income!

I am not someone who just thinks it is possible I KNOW first hand it is! See I built my business as a Psychic Medium and Intuitive Energy Healer -- and I was the healer who was always investing in learning more, offering more, doing mentorship after mentorship -- but you know what NONE of these mentors were actually teaching me how to get MORE clients!

When I did accidentally stumble across some marketing knowledge in a life coaching certification my whole business exploded! Sounds great right?

It was -- until I burnt the F out!

My anxiety levels went through the roof and I knew it wasn't Spirit trying to get my attention.

No this was Spirit telling me there is a BETTER way to help my clients and honour my energy! As I was laying in bed, cringing because another client was messaging me wanting to book an appointment-- knowing my waiting list was already six months long. I finally realized that things had to change!

See I took the life coaching course but it didn't teach me anything about building a program that honoured my gifts and the transformation I wanted to provide for my clients! In that moment, unknown to me, my whole business changed! BOOM!

I decided to lean all the way into my path of coaching and mentoring spiritual women! In just 12 months I generated \$153,000! AND the best part was I had ENERGY! I was no longer drained or had clients coming expecting me to "fix" them, no instead I had clients who were on board, happy to do the work and their lives were changing! I

didn't take long for other Spiritual Coaches or other burnt out Healers to reach out and ask me to share with them exactly how I did it! Now I help other healers and intuitives to design their own Transformational Programs, where they are able to make a genuine transformation in the lives of their clients all while totally aligned with their soul's purpose!

The bonus-- they are able to generate an income that provides the freedom they crave while feeling fulfilled doing what they love most!

Let's work together
